Tale of a watch

!

It's a soft watch.

Yes, but this man's painted them soft.

I thought all watches were hard?

I'd like to touch one...

A soft watch...

Kind of like melted cheese.

The watch is placed on the end of a table and folded at 90°.

You can say that again.

What imagination!

Just melt a watch like cheese!

Easy...

But...

I'd like to help you touch one...

Hmm...

You sure have some crazy ideas.

But I know a living watch...

I don't know if it's soft...

And it talks too.
And speaks really well...
Ah...
It even makes breakfast.
For example... what time is it right now?
